### Full job description

#### Your new company

International building products and construction materials group with three strong divisions: the high-performing, well-positioned materials business; Has approximately 16,500 full-time equivalent employees (including in JVs) working across over 700 operating sites in 17 countries as at 30 June 2017.

#### Your new role

Based in Tamworth, we are looking for a responsible and experienced individual to join our team as a Laboratory Technician. Working as a part of the Hunter / New England Team this role reports to the Laboratory Manager (Country) and involves the day to day sampling and testing of Concrete and Quarries products across the Hunter / New England Area.

The main responsibilities include:

- Sampling and Testing of Concrete
- Sampling and Testing of Aggregates

- Generating reports on test results and accurate record keeping
- Calibration and maintenance of laboratory equipment
- Follow Inspection and Test Plans to carry out production and compliance testing
- Maintenance of the laboratory in accordance with requirements

#### **What you'll need to succeed**

- A commitment to safety and quality
- Previous Concrete or Quarry laboratory testing (desirable but not essential).
- Relevant tertiary qualifications in science or another relevant discipline e.g. Civil, Chemical or Materials - (desirable but not essential).
- Well-developed skills and understanding of computer systems for monitoring and reporting of data (especially with Microsoft Office, Word, Excel etc).
- Good time management and organisational skills
- An ability to cope with competing priorities and deadlines
- Good communication and organisational skills
- Strong customer focus
