Full job description

Your new company

Join a reputable mid-tier Civil & Project Management specialist on projects across Perth CBD & Metropolitan areas. Known for their expertise in both Civil and infrastructure construction and underground services in WA, their project teams bring a thorough and professional approach to project delivery, resulting in creative, innovative and cost-effective solutions that offer exceptional value to a range of Government and private sector clients.

Your new role

My client is currently seeking an experienced and motivated Senior Project Engineer with a great attitude, to join the team on a permanent basis to work on a multitude of small to medium sized projects from local councils and shires to state government and Water Corporation .

- Work alongside the Project Manager & Site Supervisor to support all site activity
- Develop and review the construction plan
- Prepare and monitor budgets, execute the project in a cost and time effective manner
- Conduct risk assessments, monitor project safety and ensure safety control measures are in place and always followed
- Co-ordinate the bill of materials
